TO AVOID A \$50 COPAYMENT Remember To Use In-Network Freestanding Facilities For All Your Lab Work And Imaging Services.

There could be a \$50 copayment when you are NOT hospitalized and receive lab work or imaging services. You can avoid this copay by using in-network freestanding facilities. If the services you receive are billed as an outpatient hospital service you will be charged a \$50 copay.

It matters where the lab work and imaging services are **processed**. Even if you have testing done in your doctor's office, a clinic, etc., lab work and imaging services that are **processed and billed as an outpatient hospital service** will result in a \$50 copay that you will be responsible to pay.

Check before you receive services! Find out exactly where the lab work and imaging services will be processed. Then contact our dedicated Highmark representative, Josh Pascazi, at 412-544-8435. He will be able to verify if the processing site is considered a freestanding facility or not. He can also direct you to free standing facilities in your area.

**IT IS YOUR RESPONSIBILITY TO USE
IN-NETWORK FREESTANDING FACILITIES.**
